SECTION 4: First aid measures	
4.1. Description of first aid measures	
First-aid measures general	: In all cases of doubt, or when symptoms persist, seek medical attention.
First-aid measures after inhalation	: Remove victim to fresh air and keep at rest in a position comfortable for breathing. In case of breathing difficulties administer oxygen. In case of irregular breathing or respiratory arrest provide artificial respiration. Seek medical advice.
First-aid measures after skin contact	: Remove contaminated clothing immediately. Wash skin thoroughly with mild soap and water. Seek medical attention immediately.
First-aid measures after eye contact	: Rinse immediately with plenty of water for 15 minutes. Contact lenses should be removed. Immediately get medical attention.
First-aid measures after ingestion	: Rinse mouth immediately and drink plenty of water. Call a POISON CENTER or doctor/physician. If vomiting occurs, lean patient forward or place on left side (head-down position, if possible) to maintain open airway and prevent aspiration. Observe the patient carefully. Never give liquid to a person showing signs of being sleepy or with reduced awareness; i.e. becoming unconscious. Immediately seek medical advice. Induce vomiting as directed by medical professional. Never give anything by mouth to an unconscious person. If unconscious, place in the recovery position and seek medical advice.
4.2. Most important symptoms and effects	s, both acute and delayed
Symptoms/injuries after inhalation	: Inhalation of mist or aerosol may cause irritation to nose and throat . May cause irritation to the respiratory tract.
Symptoms/injuries after skin contact	: Causes skin irritation.
Symptoms/injuries after eye contact	: Causes serious eye damage.
Symptoms/injuries after ingestion	: Can occur: Gastrointestinal disturbance. Incoordination, dizziness, headache, nausea, mental

confusion slurred speech depending to quantity of ingested material.

### 6.2. Environmental precautions

Prevent entry to sewers and public waters.

revent entry to bewere and par	
3.3. Methods and materia	al for containment and cleaning up
<i>l</i> ethods for cleaning up	: Take up liquid spill into inert absorbent material. Sweep or shovel spills into appropriate container for disposal. Ensure all national/local regulations are observed.
6.4. Reference to other s	ections
Refer to sections 8 and 13.	
SECTION 7: Handling ar	nd storage
7.1. Precautions for safe	handling
Precautions for safe handling	: Avoid mixing with air or use for any purpose above atmospheric pressure . If possible use nitrogen (under pressure) to carry out transfers.
lygiene measures	: Wash contaminated clothing prior to re-use. Always wash hands and face immediately after handling this product, and once again before leaving the workplace. Do not eat, drink or smoke when using this product.
2. Conditions for safe s	storage, including any incompatibilities
echnical measures	<ul> <li>Provide local exhaust or general room ventilation. A washing facility/water for eye and skin cleaning purposes should be present.</li> </ul>
Storage conditions	Obtain special instructions before use. Keep out of direct sunlight. Store in original container. Keep container tightly closed in a cool, well-ventilated place. Keep away from heat. Receptacle under pressure. Do not freeze. Product that is frozen and/or tending to sedimentation can be liquefied or homogenized by careful application of indirect heat (do not use flames or direct contact with a heat source).
Storage temperature	: 21 - 26 °C
