

Safety Data Sheet

MSD050EN

Rev. B

Date: 2016-February

1.0 PRODUCT AND COMPANY IDENTIFICATION

Supplier:

Graco Inc.
P.O. Box 1441
88 11th Ave. NE
Minneapolis, MN 55440-1441

Contact: www.graco.com

For Chemical Emergency

Spill, Leak, Fire, Exposure, or Accident

Call CHEMTREC Day or Night

Within USA and Canada: 1-800-424-9300

Outside USA and Canada: 1-703-741-5970

Product Name: TSL TCP

Part Number(s): 288166

Use: Specialty Lubricant

SECTION 2

HAZARD IDENTIFICATION

Appearance:	Clear, Colorless to slightly brown
Odor:	Slight
Classification:	Single target organ toxicant – repeated exposure category 2 Reproductive toxicant category 1 Hazardous to the aquatic environment (acute hazard) category 1
Target Organs:	Not applicable.
suggested pictograms: 8 9	
Pictogram(s):	
Signal Word:	DANGER
Hazard Statement:	H360 - May damage fertility or the unborn child H373 - May cause damage to organs through prolonged or repeated exposure H410 - Very toxic to aquatic life with long lasting effects
Other Hazards:	Not determined.
Prevention:	P202 - Do not handle until all safety precautions have been read and understood P260 - Do not breathe dust/fume/gas/mist/vapours/spray P273 - Avoid release to the environment P280 - Wear protective gloves/protective clothing/eye protection/face protection
Response:	P308+P313 - IF exposed or concerned: Get medical advice/attention P391 - Collect spillage
Storage Procedures:	P405 - Store locked up
Disposal:	P501 - Dispose of contents and container in accordance with federal, state, and local regulations
Other:	See section 11 for complete health hazard information.

SECTION 3**COMPOSITION OF INGREDIENTS**

Component	CAS Number	Percentage (by weight)
Tricresyl phosphate (mixed isomers)	1330-78-5	80 - 100%
Tricresyl Phosphate (M-M-M, M-M-P, M-P-P, P-P-P)	78-32-0	2.0 - 12%
Tri-ortho-cresyl phosphate	78-30-8	< 0.1%
Trixylyl phosphate	25155-23-1	0.0 - 20%

The balance of components do not contribute to the overall classification of the fluid, according to the GHS Standard.

SECTION 4**FIRST AID MEASURES**

Eye Contact:	If irritation occurs, cautiously rinse eyes with lukewarm, gently flowing water for 5 minutes, while holding the eyelids open. If eye irritation persists: Get medical advice/attention.
Skin Contact:	Call a doctor if you feel unwell.
Inhalation:	Get medical advice or attention if you feel unwell or are concerned.
Ingestion:	If you feel unwell or concerned: Get medical advice/attention. Rinse mouth. Do NOT induce vomiting. If vomiting occurs naturally, lie on your side, in the recovery position.
Other:	No additional information.

SECTION 5**FIRE FIGHTING MEASURES**

Flash Point:	241°C by Cleveland Open Cup Tester.
Flammable limits:	Not determined.
Extinguishing media:	Use dry chemical, alcohol foam, all purpose AFFF or carbon dioxide to extinguish fire.
Special firefighting procedures:	DO NOT direct a solid stream of water or foam into hot, burning pools of liquid since this may cause frothing and increase fire intensity. Frothing can be violent and possibly endanger any firefighter standing too close to the burning liquid. Use water spray to cool fire exposed containers and structures until fire is out if it can be done with minimal risk. Avoid spreading burning material with water used for cooling purposes. Wear full firefighting turn-out gear (full Bunker gear), and respiratory protection (SCBA).
Unusual fire & explosion hazards:	Dense smoke may be generated while burning. Toxic fumes, gases or vapors may evolve on burning. High temperatures may create heavy flammable vapors that may settle along ground level and low spots to create an invisible fire hazard.
Byproducts of combustion:	Fires involving this product may release oxides of carbon, phosphorus, nitrogen and sulfur; reactive hydrocarbons and irritating vapors.
Autoignition temperature:	Not determined.
Explosion data:	Not determined. Care should always be exercised in dust/mist areas.
Other:	Dispose of fire debris and contaminated extinguishing water in accordance with official regulations.

SECTION 6**ACCIDENTAL RELEASE MEASURES**

- Spill control procedures (land):** Immediately turn off or isolate any source of ignition (pilot lights, electrical equipment, flames, heaters, etc.). Evacuate area and ventilate. Personnel wearing proper protective equipment should contain spill immediately with inert materials (sand, earth, chemical spill pads of cotton) by forming dikes. Dikes should be placed to contain spill in a manner that will prevent material from entering sewers and waterways. Large spill, once contained, may be picked up using explosion proof, non-sparking vacuum pumps, shovels, or buckets, and disposed of in suitable containers for disposal. If a large spill occurs notify appropriate authorities. In case of road spill or accident contact Chem-Trec (800-424-9300).
- Spill control procedures (water):** Try to contain large spills with floating booms to prevent spill from spreading. Remove from surface by skimming or with suitable adsorbents. If a large spill occurs notify appropriate authorities (normally the National Response Center or Coast Guard at 800-424-8802).
- Waste disposal method:** Do not empty into drains. All disposals must comply with federal, state, and local regulations. The material, if spilled or discarded may be a regulated waste. Refer to state and local regulations. Department of Transportation (DOT) regulations may apply for transporting this material when spilled. See Section 14.
- Other:** CAUTION - If spilled material is cleaned up using a regulated solvent, the resulting waste mixture will be regulated.

SECTION 7**HANDLING AND STORAGE**

- Handling procedures:** Keep containers closed when not in use. Do not transfer to unmarked containers. Empty containers retain product residue which may exhibit hazards of material, therefore do not pressurize, cut, glaze, weld, or use for any other purposes. Return drums to reclamation centers for proper cleaning and reuse.
Handling temperatures should not exceed 60°C (140°F) to minimize danger of burns. Open containers carefully in a well ventilated area or use appropriate respiratory protection. Wash thoroughly after handling.
- Storage procedures:** Store containers away from heat, sparks, open flame, or oxidizing materials. Extended storage at excessive temperatures may produce odorous and toxic fumes from product decomposition.
- Additional information:** No additional information.

SECTION 8**EXPOSURE CONTROLS/PERSONAL PROTECTION**

- Personal protection:** Applicable mainly to persons in repeated contact situations such as packaging of product, service/maintenance, and cleanup/spill control personnel.
- Respiratory protection:** None required if ventilation is adequate. Otherwise a respiratory protection program meeting OSHA 1910.134 and ANSI Z88.2 requirements must be followed. Where misting may occur, wear an MSHA/NIOSH approved (or equivalent) half-mask form dust/mist air purifying respirator.
- Eye protection:** Eye protection is strongly recommended. Wear safety glasses with side shields or vented/splash proof goggles (ANSI Z87.1 or approved equivalent).
- Hand protection:** Impervious, chemically resistant gloves such as neoprene or nitrile rubber to avoid skin sensitization and absorption.
- Other protection:** Use of an apron and overboots of chemically impervious materials such as neoprene or nitrile rubber is recommended based on level of activity and exposure. If handling hot material use insulated protective equipment. Launder soiled clothes. Properly dispose of contaminated leather articles and other materials which cannot be decontaminated.

Local control measures: Use adequate ventilation when working with material in an enclosed area. Mechanical methods such as fume hoods or area fans may be used to reduce localized vapor/mist areas. If vapor or mist is generated when the material handled, adequate ventilation in accordance with good engineering practice must be provided to maintain concentrations below the specified exposure. Eyewash stations and showers should be available in areas where this material is used and stored.

Other: Consumption of food and drink should be avoided in work areas where product is present. Always wash hands and face with soap and water before eating, drinking or smoking.

SECTION 9

PHYSICAL AND CHEMICAL PROPERTIES

Appearance:	Clear, Colorless to slightly brown
Odor:	Slight
Odor threshold:	Not determined.
pH:	Not applicable.
Melting/Freezing point:	Not determined.
Initial boiling point:	260°C (500°F) @ 10 mmHg
Boiling range:	Not determined.
Flash point:	241°C.
Evaporation rate:	Not determined.
Flammability:	Not determined.
Upper flammable limit:	Not determined.
Lower flammable limit:	Not determined.
Vapor pressure:	0.1 mmHg (15.6°C)
Vapor density:	Not determined.
Relative density:	1.16 @ 15.6°C
Solubility:	Negligible in water, miscible in most petroleum solvents.
Partition Coefficient:	Not determined.
Auto-ignition temperature:	Not determined.
Decomposition temperature:	Not determined.
Viscosity:	22 cSt at 40°C.
Other	Not applicable.

SECTION 10

STABILITY AND REACTIVITY

Reactivity Chemical stability: Hazardous polymerization: Conditions to avoid: Incompatibility with other materials: Decomposition products:	Material is chemically stable at room temperatures and pressure. Will not occur. Avoid high temperatures and product contamination. Avoid contact with acids and strong oxidizing materials. Smoke, carbon monoxide, carbon dioxide, and other aldehydes of incomplete combustion. Oxides of carbon, nitrogen, and sulfur; reactive hydrocarbons and irritating vapors.
Other:	Not applicable.

SECTION11**TOXICOLOGICALINFORMATION****Acute toxicity (LD50) *See note at the bottom of the section**

Oral: Dermal:	>5000 mg/kg
Inhalation:	>5000 mg/kg
Skin irritation:	>20.0 mg/l
Eye irritation:	Non-irritant
Dermal sensitization:	Non-irritant
Respiratory sensitization:	Not expected to have a sensitizing effect.
Aspiration Hazard:	Not expected to have a sensitizing effect.

Chronic Toxicity Not applicable

Mutagenicity:

Carcinogenicity: Not suspected of causing genetic defects

Reproductive toxicity: Not suspected of causing cancer.

STOT-single exposure: May damage fertility or the unborn child.

STOT-repeated exposure: Not expected to have adverse effects.

Other: May cause damage to organs through prolonged or repeated exposure.

*All data in this section is based off calculations from Part 3 of the Globally Harmonized System of Classification and Labelling of Chemicals (GHS) utilizing information from the constituent components.

SECTION12**ECOLOGICALINFORMATION****Environmental toxicity**

Fish:	> 100 mg/l.
Invertebrates:	> 100 mg/l.
Aquatic plants:	> 100 mg/l.
Microorganism:	> 100 mg/l.

Persistence/Degradability: This product is not expected to be readily biodegradable.

Bioaccumulation: Not determined.

Mobility in soil: Not determined.

Other: All classifications are based on calculations in Part 4 of the Globally Harmonized System of Classification and Labelling of Chemicals (GHS) utilizing information from the constituent components.

SECTION13**DISPOSALCONSIDERATIONS**

Waste disposal: This product unadulterated by other materials can be classified as a non-hazardous waste. Depending on use, used product may be regulated. Dispose of in a licensed facility. Do not discharge product in to sewer system. Dispose of containers by crushing or puncturing, so as to prevent unauthorized use of used containers. Waste management should be in full compliance with federal, state, and local laws.

Other The transportation, storage, treatment and disposal of RCRA waste material must be conducted in compliance with 40 CFR 262, 263, 264, 268 and 270. Chemical additions, processing or otherwise altering this material may make the waste management information presented in this SDS incomplete, inaccurate or otherwise inappropriate.

SECTION14**TRANSPORTINFORMATION**

Land Transport (DOT): Not regulated in quantity offered
Proper Shipping Name: .
Land Transport (TDG): Not regulated in quantity offered
Proper Shipping Name: .
Sea Transport (IMDG): Not regulated in quantity offered
Proper Shipping Name: .
Air Transport (IATA): Not regulated in quantity offered
Proper Shipping Name: .
Other: This product is not restricted by air when shipped in quantities less than or equal to 5 L or 5 kg; per IATA DGR 4.4 SP A197. Not regulated when shipped via ocean per IMDG 2.10.2.7

SECTION15**REGULATORYINFORMATION**

WHMIS: D2A Very toxic material causing other toxic effects
This product has been classified in accordance with hazard criteria of the Controlled

Federal Regulation
Clean water act/oil: Not Determined.
TSCA: All components of this material are listed in the U.S. TSCA Inventory.
Other TSCA: Not applicable.
SARA title III: Section 302/304 extremely hazardous substances:
None.
Section 311, 312 hazard categorization:
Acute (immediate health effects): NO
Chronic (delayed health effects): YES
Fire (hazard): NO
Reactivity (hazard): NO
Pressure (sudden release hazard): NO
Section 313 toxic chemicals:
No components present are at or greater than the de minimis (minimum reportable) concentration requirements for reporting.

CERCLA: For stationary/moving sources – reportable quantity (due to): Not hazardous due to the petroleum exclusion.

State Regulations
Right-to-know Not determined.
Other: A release of this product, as supplied, is exempt from reporting under the Comprehensive Environmental Response Compensation and Liability Act (CERCLA). However, releases may be reportable to the Nation Response Center under the Clean Water Act, 33 U.S.C. 1321(b)(3) and (5) - see head of Section 15. Failure to report may result in substantial civil and criminal penalties.

Recommend contacting the local authorities in the event of any type of spill to determine local reporting requirements and also to aid in the cleanup.

SECTION 16

OTHER INFORMATION

	NFPA 704	NPCA-HMIS	KEY
HEALTH:	1	1	0 = Minimal
FIRE:	1	1	1 = Slight
REACTIVITY:	0	0	2 = Moderate
SPECIFIC HAZARD:	None	N/A	3 = Serious
PROTECTION INDEX:	N/A	B	4 = Severe

Revision History: (Rev B. 2/10/2016, Updated Section 14)
